Mohamed Kamil
15/09/2002

Junior Data Analyst with strong SQL, Excel, Power BI, and Python skills, experienced in building KPI dashboards, performing data cleaning, and developing predictive models. Hands-on experience through internship and real-world projects focused on business reporting and performance analysis. Seeking entry-level Data Analyst or BI Analyst role in UAE.

Technical Skills

- Analytics & BI: Power BI (Interactive Dashboards, KPI Reporting), Microsoft Excel (Advanced), Data Visualization
- Databases: SQL (PostgreSQL, MySQL, Microsoft SQL Server)
- Methodologies: Agile Methodology, Scrum Basics
- Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib)
- Tools & Platforms: Jupyter Notebook, Anaconda

Professional Experience

Data Analyst - ExcelR 01/2025 – 12/2025
Bengaluru

- Designed and maintained **Power BI dashboards** to monitor website traffic, customer engagement, and campaign performance metrics.
- Generated Excel reports to evaluate user behavior trends and content effectiveness.
- Assisted in tracking **digital KPIs** such as click-through rates, engagement ratios, and conversion indicators.
- Collaborated with cross-functional teams to convert analytical findings into actionable marketing improvements.
- Supported website content updates and performance monitoring activities.

Data Science Virtual Internship — British Airways (Forage) 02/2025 – 02/2025
Remote, India

- Worked with structured datasets to identify patterns, trends, and performance insights.
- Developed visual dashboards for stakeholder reporting and business presentations.
- Applied analytical techniques for KPI tracking and forecasting simulations.
- Strengthened practical understanding of data-driven decision-making applicable to marketing analytics and business reporting.

Projects

Bank Analytics Dashboard, SQL | Power BI | Excel | Tableau

- Analyzed **65K+ banking loan and transaction records** to identify customer financial behavior and loan performance trends.
- Built **interactive dashboards tracking KPIs like loan applications, interest revenue, and credit-debit ratios** to support data-driven banking decisions.

HR Analytics – Employee Attrition

- Analyzed HR datasets to identify **employee attrition drivers related to salary, promotion delays, and work-life balance**.
- Built dashboards tracking **department attrition rates and workforce trends** to support HR retention strategies.

Kickstarter Crowdfunding Analysis

- Analyzed **365K+ crowdfunding campaigns dataset** to identify factors influencing project success.
- Built dashboards comparing **success rates by category, country, and funding goals** to uncover key campaign performance insights.

Adventure Works Sales Analysis

- Analyzed sales data to evaluate **revenue, profit, customer growth, and product demand across regions and time periods**.
- Developed **Power BI dashboards visualizing monthly, quarterly, and yearly sales performance** to identify high-performing products and markets.

Healthcare Analytics

- Analyzed hospital data including **10K patient visits and $30M revenue** to monitor operational performance.
- Created dashboards visualizing **patient trends, doctor workload, and follow-up rates** to improve healthcare service efficiency.

Education

B.E. Computer Science & Engineering 10/2021 – 06/2025
SNS College of Engineering, India

Certificates

- Business Analyst Certification – ExcelR (2025)
- Data Science Job Simulation – British Airways Forage (2025)
